

Oracle 11g: Private Database Cloud Seminar

Cloud Computing Introduction

- Cloud Characteristics
- Service Models
- Deployment Models

Private Database Cloud Enabling Technologies

- Oracle In-Memory Database
- Oracle In-Memory Database Cache Grid
- Oracle Exadata Database Machine
- InfiniBand Network
- Oracle Real Application Clusters
- Oracle RAC One Node
- Automatic Storage Management

Service Agility in the Private Database Cloud

- Resource Manager capabilities
- Resource Management
- Quality of Service
- QoS Recommendations

Database Cloud Deployment

- Database Cloud deployment life cycle
- Deploy the Cloud
- Defining Services
- Service Agility
- Metering and Chargeback
