SAP - Configuration for Investment Management

- Brief overview of the business processes in Investment Management
- The course covers Customizing steps for implementing the following objects:
  -Investment programs
  -Appropriation requests
  -Investment projects as investment measures
- Reporting: Introduction for drilldown reporting and summarization

Notes

- This course considers Customizing of SAP Project System only from the perspective of Investment Management.
- Settings for special Management Accounting functions for projects are addressed only as far as they are typically required for investment projects.
- The content of the course is also appropriate for participants on the following SAP software releases: R/3 4.6, R/3 Enterprise, ECC5.0.
