ONTAP NFS Administration (NFSAD)

Module 1: NFS Overview

- Define NFS Protocol
- List and differentiate between the versions of NFS
- Discuss how ONTAP support NFS deployments
  Module 2: NFS v3

- Describe NFS v3
- Configure NFSv3 on Data ONTAP
- Describe how security works in NFS v3
  Module 3: NFS v4

- Describe NFS v4
- Configure NFSv4 on Data ONTAP
- Describe how security works in NFS v4
Module 4: NFS v4.1

- Describe NFS v4.1
- Configure NFS v4.1 on ONTAP 9
Module 5: NFS Monitoring and Troubleshooting

- Discuss performance monitoring techniques for storage and clients
- Describe basic NFS troubleshooting
- List locations of Export Rule Evaluation Errors
