Managing Industrial Networks for Manufacturing with Cisco Technologies - QLM eLearning

Course Details

Course Outline

1. Overview of Industrial Networking Concepts and Components

2. General Industrial Networking Troubleshooting Issues

3. Introduction to EtherNet/IP and Common Industrial Protocol (CIP)

4. Troubleshooting EtherNet/IP and Common Industrial Protocol (CIP)

5. Introduction to ProfiNET I/O Protocol Overview

6. Configuring & Troubleshooting ProfiNET I/O Protocol

7. Exploring Security Concerns within the IACS Environment

8. 802.11 Industrial Ethernet Wireless Networking Overview
