

Our online CIPD qualifications are fully-approved by the CIPD and also around 40% cheaper than our face-to-face classrooms.

→ You can participate in exactly the same way as if in a physical classroom. All you need is internet access.

→ The workshops are run over secure video chat and from the comfort and safety of your home.

→ You can interact with other students in the classroom, and the tutor is with you throughout the live session.

→ Course materials, resources and ebooks are all made available electronically.

→ There is also the opportunity for you to have 1:1 sessions with a tutor at the end of the session.

→ Access to our 24-hour Online Student Platform for support and guidance.

Long story short: this is everything you would get in a normal professional development course, just online. This is not an online portal where students are expected to self-study. This is a unique opportunity to continue your professional development without interruption and get a qualification online
