

SAP HANA 2.0 SPS03 Advanced Modeling

- Introduction to Advanced Modeling
- SAP HANA Predictive Analysis Library (PAL)
 - Describing SAP HANA PAL
 - Using PAL in Flowgraphs
 - Calling PAL Functions in Calculation Views
 - Calling PAL Procedures in SQL Scripts
 - Exploring the PAL Library
- SAP HANA Spatial
 - Introducing SAP HANA Spatial
 - Working with Spatial Data Types
 - Importing and Exporting Spatial Data
 - Accessing and Manipulating Spatial Data
 - Using Spatial Clustering
- SAP HANA Graph
 - Defining SAP HANA Graph Workspace
 - Describing the Different Graph Algorithms
 - Using the Graph Node in Calculation Views
 - Using GraphScript Procedures
- SAP HANA Text
 - Understanding Full Text Search
 - Understanding Text Analysis
 - Understanding Text Mining
- SAP HANA Series Data
 - Getting Started with SAP HANA Series Data
