EDX11076: Windows Server 2016: Advanced Storage - INF217x

Course Details

Course Outline

1. **Storage Solutions**
   - iSCSI Storage
   - Data Deduplication
   - Storage Spaces
   - Practical Exercises

2. **Failover Clustering (Basics)**
   - Planning and Requirements
   - Configuring Failover Clustering
   - Managing Failover Clustering
   - Practical Exercises

3. **Failover Clustering (Management)**
   - Quorum and Witness
   - Cluster-Aware Updating
   - Cluster OS Rolling Update
   - Practical Exercises

4. **Branch Office Storage**
   - Distributed File Systems (DFS)
   - BranchCache
   - Practical Exercises

5. **Lab: iSCSI Storage and Failover Clustering**

6. **Lab: This content is graded**

7. **Lab: Storage Spaces and Deduplication**

8. **Lab: This content is graded**

9. **Lab: Distributed File System**
